Pan American Congress

Some of Its Work Sent to Congress.

INTERNATIONAL ARBITRATION.

The President Transmits to the House a Letter from the Secretary of State Stating the Actions of the Conference. Other Washington News.

WASHINGTON, Sept. 4.—The president sent to the house yesterday afternoon a letter from the secretary of state, accompanied by reports adopted by the Pan-American congress, relating to the subject of international arbitration.

Secretary Blaine in his letter says the act of congress approved May 24, 1888, authorized the president to invite the several other governments of America to join the United States in a conference for the purpose of discussing and recommending for adoption some plan of arbitration for the settlement of differences and disputes that may hereafter arise between them. In pursuance of this invitation the conference, he says, adopted three reports.

First—Recommending a definite plan of arbitration for the settlement of differences between the American nations. Second—Recommending the adoption of a similar plan by the nations of Europe.

Third—Declaring that the right of conquest could not be recognized by the American nation.

In his letter of transmittal the president says that the ratification of the treaties contemplated by these reports will constitute one of the happiest and most useful incidents in the history of the western hemisphere.

Senate and House Proceedings.

WASHINGTON, Sept. 4.—In the senate yesterday resolution offered by Mr. Caldring, declaring the shooting of Gen. Barranquilla an insult to the American flag, was referred to a committee. The tariff bill was taken up, and the sugar schedule discussed. Extended speeches on the general subject of protection were made by Messrs. Evans, Voorhees and Gray. The evening session was devoted to speeches on the bill.

The house passed the bill to regulate granting of leases at Hot Springs, Ark., and the bill for a bridge across the Savannah by the Georgia and Atlantic railroad. The Clayton-Breckinridge case was taken up and discussed with some ceremony but without action, adjournment being delayed until a late hour.

The President's Telegram.

WASHINGTON, Sept. 4.—Acting Secretary Wharton has sent the following telegram to the widow of Gen. Barranquilla in reply to her message to the president Monday evening: The president desires me to say he has received your telegram announcing the death of your husband, Gen. Barranquilla. While deeply sympathizing with you in your affliction, he awaits official details of the occurrence necessary to determine his action in regard thereto. This matter, you may be assured, will receive most careful attention.

Silver Purchases.

WASHINGTON, Sept. 4.—The director of the mint yesterday purchased 100,000 ounces of silver at \$1.19 1/4, and 200,000 ounces at \$1.19 4/10. The total amount offered yesterday aggregated 2,003,500 ounces. Silver yesterday in London was sold at 54 5/8 pence per ounce, the highest price recorded in that market since March 1878.

More Bond Purchases.

WASHINGTON, Sept. 4.—The treasury department yesterday purchased \$63,650, four-and-a-half per cent, bonds under the terms of the circular of Aug. 30.

The Latest Snake Story.

COLUMBUS, Ind., Sept. 4.—While Section Foreman Joseph Mullin, of the main line of the Jeffersonville, Madison and Indianapolis railroad, was at work with a force of men on a trestle over Genius creek, a small stream near this place, they discovered on the sand below a snake about five feet in length. Its peculiar actions attracted the attention of the laborers, one of whom went below with a long-handled shovel killed the reptile, which proved to be a copperhead. Near by, in the warm sand, were found forty-three small snakes of the same kind, and all were killed.

Failed for Over Half a Million.

ANTIGO, Wis., Sept. 4.—The lumber and logging firm of Hixie & Mellor failed this morning with liabilities of \$518,000. The assets, comprising logging railroad lumber, lands and mills, are placed at \$690,000. The firm employed 400 men but it is not likely that business will be resumed. The failure is attributed to dull trade, and was precipitated by the refusal of the National bank of Oshkosh to carry the firm's paper any longer.

A Big Hunt, But Not All.

BOSTON, Sept. 4.—The dwelling of Charles Vanbrunt, the grandson of Commander Vanbrunt, on Brush Hill, Milton, was entered by burglars Monday night. They carried off a quantity of clothing and a number of watches and diamonds. The stolen property is valued at \$4,000. In a drawer of a bureau was a casket containing the family jewels and heirlooms. These the burglars overlooked. They are valued at \$30,000.

Collision on the B. & O.

CAMBRIDGE, O., Sept. 4.—There was a bad rear end collision on the Baltimore and Ohio road at this place yesterday, five loaded cars and one engine being completely demolished. The wreck was caused by the conductor of the first train not sending back a flagman when he left the train on the main track to do some switching.

EDITORS GET THE RAZOO.

The President of Venezuela Seems to Have Too Much Power.

CITY OF CARACAS, Sept. 4.—The president of Venezuela has just issued a decree punishing several editors who have been adjudged as having seized him and other public functions. After a long preamble setting forth the laws of the country, the decree continues:

"Especial note must be taken of the newspapers called La Sombra, El Independiente and El Obrero, whose editors and proprietors have been guilty of calumny against the president of the republic and other high functionaries in their character as magistrates, as well as having calumniated the integrity of the president's household."

"Therefore, because of these acts, ordered for arrest is herewith issued for the editors Felix Matos Bernier, Luis Caballer and Francisco Gonzalez Marin, Spanish subjects, comprising the editorial staff of La Sombra; Juan Caronel, editor of El Obrero, Colombian citizen; Manuel Avila Blanco, Venezuelan, editor of the El Independiente, and Manuel Marquez and Eduardo Diez, of the editorial staff of La Guillotina."

The president of the republic, with the affirmative votes of the Federal council, decrees that the Spanish subjects, Felix Matos Bernier, Luis Caballer and Francisco Gonzalez Marin, and the Colombian citizen, Juan Caronel, shall be placed on board the first steamer leaving this country for foreign parts from the port of La Guayra. The governor of the Federal districts will place the Venezuelan citizens, Manuel Avila Blanco, Manuel Marquez and Eduardo Diez, under arrest, so that they may be judged by the courts and sentenced for the crimes they have committed, all to be done in conformity with the law.

BASE BALL CONFERENCE.

No Interchange of Games Between the Players' and Association.

PHILADELPHIA, Sept. 4.—An important secret base ball conference was held yesterday between the Players' League and American Association. The proposition for an interchange of games between the organizations after the close of the championship season was, it is said, defeated by the vote of the Baltimore club. The Players' League was represented at the conference by President Johnson, Secretary Brunell and John M. Ward. President Phelps, Chris. Von der Ahe and Treasurer Whittaker represented the Association, the other clubs being represented by proxy.

The conference was called at the suggestion of the Players' League, and certain propositions were made. The Players' are said to be desirous of forming an offensive and defensive alliance with the Association, but that is a proposition the Association delegates refused to entertain. It was then suggested that there be an interchange of games after the regular season, and that met with some favor, but when it came to a vote it was defeated by the ballot of the Baltimore club, which is said to be controlled by Charles Byrne of Brooklyn.

Corneer Factory Burned.

NEW YORK, Sept. 4.—Thomas Hogan's corneer factory at 227 and 239 East Fifty-sixth street, was gutted ye terday by a fire which destroyed the whole inside of the structure. The fire is said to have been caused by an explosion which occurred in the basement where four or five boys were at work at the time. Two of the boys, John Logan and John O'Brien were badly burned, while one, Daniel Killen, aged 15, was burned to death. Mr. Hogan places his loss at \$15,000, partly insured. The cause of the fire and explosion is a mystery.

Ten Buildings Burned.

LEWIS, Que., Sept. 4.—Fire started at 1 o'clock this morning in Pupiles's tannery on St. Eteine street, and, fanned by a fresh breeze, spread rapidly. The fire brigade were powerless to check the flames, and a detachment of "B" battery were brought over from the fort. They rendered effective service, and the flames were under control at 3:30 o'clock. Ten buildings were burned. The total loss is estimated at \$30,000; insurance \$12,000.

Death of a Noted Newspaper Man.

BALTIMORE, Sept. 4.—William M. Butts, of the firm of Butts & Robinson, printers and publishers of The Protector, the official organ of the Ancient Order of United Workmen, died yesterday from the effects of a dose of morphine, which he admitted having taken with suicidal intent. Mr. Butts was past grand master of the Ancient Order of United Workmen. Mr. Robinson says he knows no no reason for the suicide.

Reward for a Murderer.

BRYAN, O., Sept. 4.—The Crawford county commissioners have authorized a reward of \$1,000 for evidence that will lead to the conviction of the person or persons who murdered John J. Kirkland, at Crestline, on the night of Aug. 15. At present there is no clew to the perpetrators of the deed.

Spokee Reed in Boston.

BOSTON, Sept. 4.—Speaker Reed, who is on his way to Maine to participate in the political campaign in that state, addressed a large audience last night at Faneuil hall. It was a very enthusiastic gathering, and Mr. Reed was given a rousing welcome.

Arkansas Election Returns.

LITTLE ROCK, Sept. 4.—Returns from 556 out of 1,020 townships in the state give Eagle, Democrat, for governor, a gain of 9,920 over his majority in the same places two years ago. If the same ratio continues Eagle's majority will reach 30,000.

A Negro Murderer Lynched.

POPLAR BLUFF, Mo., Sept. 4.—Thomas Smith, a negro, who during an altercation yesterday with Mr. Albright, fractured the latter's skull with a stone, was taken from jail this morning by a masked mob and lynched.

Galicia Mine Horror.

Further Particulars of the Great Calamity.

CARELESSNESS THE CAUSE.

A Fire Near the Mouth of the Mine Causes the Shaft to Be Closed and Eighty Miners Are Suffocated—Other Disasters from Abroad.

VIENNA, Sept. 4.—Details regarding the mine explosion near Borgstan, in Galicia, reveal the outrageous action of mine owners that has resulted in the loss of eighty lives.

On Friday last, through the explosion of a boiler, the Walaoka mine buildings were set on fire. In order to control the fire the shafts were closed, the miners being apparently ignorant or careless of the fact that they were thus imprisoning eighty of their employees. Yesterday when the shafts were opened only one body was found, the others not having yet been discovered. The eighty are supposed to have been killed by poisonous gases.

All Eyes on Vienna.

VIENNA, Sept. 4.—The situation on the Armenian frontier is very grave. The Russian forces in that direction are being constantly strengthened, the garrison of Batum, Kars and other fortified towns have lately been increased, and the army of the Caucasus is in a full state of preparation for an advance. It seems certain that Russia will proceed at an early date to occupy Armenia. Russia does not anticipate a general war as the result of such occupation, believing that the triple alliance and Great Britain would not go to any serious lengths to save such a distant province for the porte. Meantime the sultan's government is showing a little more energy in seeking to remove the causes of disaffection.

Tried to Kill a Russian Governor.

ST. PETERSBURG, Sept. 4.—At Nijni-Novgorod, a young man named Vladimiroff, accosted Governor General Baranoff, and requested an interview, on the pretense that he had an important secret to impart. The governor general was about to acquiesce, when the young man drew a revolver and fired at Baranoff. The bullet went wide of its mark, however, and before he could fire a second shot the man was seized by bystanders and handed over to the police.

BARBAROUS CRUELTY.

A Boy Almost beaten to Death by His Intemperate Parents.

PITTSBURGH, Sept. 4.—A special to The Times from East Liverpool, O., says: Word comes from Walkers, a small village situated between this place and Wellsville, of a case of barbarous cruelty, which occurred there a day or two ago. Elias Glass lives there and works in the sewer pipe works at that place. His wife works in the glass factory in this city. Both are absent from home throughout the day, and the house is left in care of their young children. The youngest child is about a year old and the oldest is a half-witted boy about 14 years old. While the parents were away, as usual, the baby became fretful, and its cries so enraged the boy that he lifted its skirts and placed the little one on a hot stove and held it there until it was burned in a horrible manner.

When the mother returned home in the evening and heard from the other children what had happened, she beat the boy's back, and with a stout strap, on the end of which was a buckle, beat him until his back was covered with blood and bruises. Later, when the father returned home and was informed of what had occurred, he stripped the boy's legs, took a lid from the stove and applied it to the bare limbs of the boy in several places, searing him terribly at every touch. The township authorities, hearing of the affair, had the parents arrested.

SILVER ORE DISCOVERED.

A Rich Vein of the Precious Metal Found in Clay County, Indiana.

BRAZIL, Ind., Sept. 4.—Information has reached this city that a very rich vein of silver ore had just been discovered near Art postoffice, fourteen miles northwest of here, on the farm of William Barber. It was discovered by William Bobo, a western prospector, and he declares the find to be one of the richest and most promising that he has ever seen, not excepting the Rocky mountain silver mining districts.

A company has been organized with a capital stock of \$100,000, and a shaft will be sunk at once and a smelting furnace put in. From fifty to one hundred men will be employed to begin with, and the most sanguine hopes are indulged in by all.

Shooting to Be Followed by a Divorce.

WASHINGTON, Sept. 4.—G. T. Parker, agent for a New York shoe firm, tried to shoot Dr. Gustavus Brown at the latter's home, near the Shoreham hotel, yesterday afternoon. Parker suspected that his wife was unduly intimate with Dr. Brown, and a few days ago told her he was going out of town for a week. He did not go away, but, watching her, yesterday found her visiting the dentist at his rooms, and, as he claims, in a compromising position. The dentist escaped to a rear room, locking the door. Mr. Parker banged away with his revolver through the locked door, without injuring Brown. A divorce suit, with Brown as co-respondent, will follow.

Bother's Candids.

ROME, Ga., Sept. 4.—Ex-Congressman W. H. Felton was yesterday nominated for congress by the straight-out Democrats who bolted the Alliance Democracy of the Seventh district.

SET AGAINST POLYGAMY.

Prophet Joseph Smith Describes the Reorganized Church of Jesus Christ.

BOSTON, Sept. 4.—Joseph Smith, president and prophet of the Reorganized Church of Jesus Christ of Latter Day Saints, and son of the famous Mormon leader of the same name, is in town this week, on his return from a reunion of disciples of the church at Jonesport, Me. Mr. Smith is a patriarchal-looking gentleman, with flowing gray beard and an air of typical western clergy about him, and when called upon conversed in an interesting way about his church, its present condition and prospects.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

THURSDAY, SEPTEMBER 4, 1890

Oct. 16th is the date and Falmouth the place of the Democratic Congressional convention in the Covington district. The old fight between Hallam, O'Hara, Dickerson and others will likely be fought over again.

INCREASED Democratic majority in Arkansas and Democratic gains in the rock-ribbed Republican State of Vermont. Such is the news from the elections this week. That's the way the country is endorsing Reed and his gang.

PRESIDENT HARRISON's administration is having a hard time in keeping the Pension Office straight. Tanner had to be fired on account of his profligacy, and now Raum, who is under investigation on serious charges, has brought fresh disgrace on himself by trying to doctor the records.

"WILL this free trade craze never cease?" asks the Louisville Times. "Blaine wants free trade with South America, Central America, Mexico and the West India Islands, and here comes John Sherman proposing free trade with Canada, mark you, a dependency of the British Lion, an old brute, the twisting of whose tail is the best evidence of an exalted patriotism. If this thing goes on Mr. McKinley will be about the only protectionist left in the country."

THE FREEMAN, a newspaper for colored people, published in Indianapolis, recently published the following piece of news about the St. Louis post office, whereof Major Harlow is appointed by Harrison, Postmaster:

"A vacancy in the money-order division was to be filled. The name of Collins Scott was selected from the civil service list of 'eligibles,' and Collins Scott was appointed. In response to the notification of appointment, C. S. appeared bright and early to go to work, when horror, or horrors! he was seen to be a negro, almost coal black. Colonel Knapp, refusing to listen to Major Harlow's explanation or apologies (which were numerous), handed in his resignation and fled the office. Major Harlow spent the balance of the day apologizing to his outraged clerks, and at the knocking off' hour told Collus Scott his services would be no longer needed. A white man now fills Scott's place."

How the Republicans do love the colored voter—about election times?

What Is It?

"This is not a lottery, and don't you forget it," says the Maysville Republican, referring to its gift enterprise.

What is it then? A subscriber to the Republican gets a ticket entitling him to a certain article among a list of prizes offered by the Republican, and the prize he receives is determined by a drawing. If the subscriber's ticket happens to "hit" he gets a prize. If it doesn't hit, he doesn't get a prize. If he renews his subscription and brings in a new subscriber he gets two tickets, which gives him an advantage over the fellow who only gets one ticket. It isn't even a fair lottery. The Republican guarantees that it has twelve hundred subscribers. Does it award twelve hundred prizes? Of course the Republican doesn't call it a lottery, but that's what it is.—Covington Commonwealth.

Afro-American Meeting.

Hon. Charles F. Armistead, of Illinois, Chicago's fearless colored Democrat, will address the citizens of Maysville at the court house to-night. Mr. Armistead will dwell at length on the tariff and the Federal elections law. He invites all who favor the future prosperity of the South, and the welfare of the colored race, to hear him.

For the Farmer.

A well-known and experienced Mason County farmer writes: "Like produces like. Several years ago the wheat crops of England were damaged to such an alarming extent, by fungi or smut, that the Government forbade the millers grinding the grain for bread. The repeated sowing of the same variety of seed from year to year was thought to be productive of the disease.

"Orders for cargoes of American wheat were received and the grain shipped. One of the vessels was disabled, on her voyage, and sunk in salt water. The grain aboard was distributed to the poor people, for the taking, who were unable to buy dry seed. It was soon discovered, however, that the germ was not destroyed by the salt, and these poor people sowed the grain on the land allotted to them by their landlords. Harvest rolled around and they had an abundant yield of clean wheat, while the adjacent fields sown in dry grain produced an inferior crop, more or less besmeared with smut.

"The good result produced by the application of strong brine or vitriol dissolved in water and sprinkled thoroughly over wheat before it is sown can be seen at the grain houses of Maysville."

Statistics show that the cotton crop this year is the largest ever produced, valued at \$500,000,000, and that the growers are less in debt than at any time for twenty-five years.

An Exciting Runaway.

Messrs. C. T. and B. F. Marsh's melon wagon was standing in front of Mr. G. W. Geisel's grocery about eight o'clock this morning when the horses became frightened at a road-cart which was wheeled out of Messrs. Thompson & McAtee's establishment. Mr. B. F. Marsh was on the wagon, and attempted to reach the lines but did not succeed. The next instant the team was dashing madly down Second street. In front of Mr. James Smith's residence, Mr. John N. Thomas' carriage, containing Mrs. Thomas and her two nieces, was struck and badly wrecked. Mrs. Thomas saved herself by jumping from the carriage when she saw the team approaching. Fortunately, her nieces escaped without serious injury. They received a few slight bruises on the face and arms, and suffered considerable from the shock.

Just west of Wall street, the runaways struck and over-turned a lumber wagon from the Maysville Manufactory and then a short distance further on Mr. R. B. Lovel's delivery wagon shared a like fate. Just west of Shortstreet, Jerome Hasson, son of Mr. James Hasson, rushed out and, seizing the lines, succeeded in stopping the team at Miller's grocery. The wagon was pretty badly used up. About forty melons were scattered along the route and the small boy enjoyed a feast.

Here and There.

Miss Junie Wood left this morning for Middlesborough to visit Mrs. J. L. Patton.

Miss Mary Alter Barbour is attending Augusta Female Seminary at Staunton, Va.

Mr. and Mrs. W. B. Thomas are visiting her mother and other relatives at Danville.

Mr. Thomas G. Forman, of Midway, is visiting his mother, Mrs. Jane Forman, at Washington.

Mrs. Sallie McDonald and Miss Sallie Taylor, of Washington, have returned from their pleasant trip East.

Miss Lettie Wood, of Louisville, has been visiting her cousin, Miss Hattie Wood, at "Woodside," near Washington.

Mr. John Condit Wood, a merchant of St. Joseph, Mo., was at Washington Wednesday to attend the funeral of his mother.

Mr. M. P. Redmond and sister, Miss Stella, and Miss Mattie Oldham left this morning to attend the fair and hop at Paris.

Mrs. R. L. Mannen and daughter, of Covington, are the guests of their relatives, Mr. George Wood and family, near Washington.

Lewis M. Wood, of Chicago, and Robt. Hayden Wood, of Kansas City, were at Washington Wednesday to attend the funeral of their mother, Mrs. Mary Ellen Wood.

Weather Predictions for September.

Some weather prophet says that active storm centers will form in the Western regions about the 2nd and 3d of September, and during the 4th, 5th and 6th will travel to the East. Many sections will get rain about these days. Also, about the 10th and 11th rains, followed by cool, northerly winds may be expected. From the 14th to 18th heavy storms, with dangerous, equinoctial gales along seas and coasts are to be feared. Earthquakes at this period, in addition to storms, need not surprise. As the equinox of Mercury falls on the 21st, and the earth at the same time, violent movements of meteorological elements generally will be the natural result about the 21st and 22nd. The last period for September will be from the 26th to the last. Cool weather, with frost in the North, is likely to follow the storms of the last two periods.

A Great Spectacular Drama.

Aiden Benedict's "Fabio Romani," a great romantic, spectacular drama, "commenced a week at the Academy Sunday afternoon. The story is similar to "Morte Cristo." A return from the tomb, a murder, a duel and an earthquake contribute toward animated action, and Villany is operated at high pressure. Walter Lawrence played the title role in an excellent manner. The part of Nina, the unfaithful wife, proved to be an anomaly in melodrama, in that it was made consistent to the last. Miss Frances Field assumed the character and handled it with great intelligence, making it the most prominent part of the cast. The scenery was quite good. A large audience was present and greatly enjoyed the performance. The business has equalled the capacity of the house.—Chicago Times.

At opera house next Saturday night. Reserved seat tickets on sale at Nelson's. See advertisement for rates of admission.

In its notes of the Bourbon Fair, the Paris Kentuckian says: "Hawke's Reed and Brass Band, from Maysville, is making excellent music. A programme of their music is furnished to the crowd each day. Mr. Geo. W. Tulor is the gentlemanly manager of the band, which ranks among the best in the State.

Quiet Ways Are the Best.

"What's the use of worrying,
Of hurrying
And scurrying

Everybody flurrying,
And breaking up their rest?
When everyone's teaching us,
Preaching and beseeching us,
To settle down and not to fuse,
Fo' quiet ways are best.

The rain that trickles down in showers,
A blessing brings to thirsty flowers;
Sweet fragrance from each brimming cup,
The gentle zephyrs gather up."

Thanks.

I hereby publicly return thanks to the Amazon Fire Company for saving my dwelling house from burning on Tuesday night.

YOU MUST REGISTER

If You Wish to Vote at the City Election the Fourth of Next January.

Synopsis of the Poynz Law Passed at the Last Session of the Legislature.

In the talk about the new registration law for Maysville it has been intimated that it would not be enforced. An examination of the act, however, sets that question at rest. The City Council is not left any choice in the matter. There can be no election next January unless there has first been a registration of the voters.

Section one of the act says: "The Board of Councilmen of the City of Maysville shall, between the first and fifteenth days of October in each year, appoint four sober and discreet citizens in each election ward of the city of Maysville," two to act as Judges, one as Clerk and one as Sheriff of registration in the wards for which they are appointed. They shall serve for one year, and "one of the judges at each ward shall be of one political party and the other of the opposing political party." The City Marshal is required to give said officers written notice of their appointment five days before the general registration. In case any of said officers fails or refuses to act the Mayor appoints some one to act in place of the one so declining.

Registration officers have same power in preserving order as is exercised by officers of election at the polls.

In case of doubt as to the right of any one to register, and in case any one is challenged, not exceeding three citizens may be called in to testify touching the qualifications of the said person or persons offering to register.

It is made the duty of the City Clerk to prepare proper forms and have printed two registration books for each ward, one to be kept in his office and the other to be furnished the clerks of registration and afterwards the clerks of election. The names of voters are to be enrolled in alphabetical order, and the registry shall show whether the voter is white or black, and shall also give his place of residence in the city, the name of street or alley on which he lives and the number, if any, of his residence.

The second Monday in November each year is the date fixed for general registration. The places of registration shall be open from 8 a. m. until 7 p. m. on that day and the next succeeding day. A party so registering shall be entitled to vote at all elections until the next general election, unless he becomes disqualified.

No person shall be registered who does not personally appear before the officers of registration.

The judges shall decide all questions relating to the qualifications of persons offering to register. When they fail to agree "the clerk shall have the casting vote."

If a person moves from one ward to another after registering, he may get a certificate from the clerk of the ward out of which he moves and on presentation of this certificate to the clerk of the ward into which he moves he shall there be registered, if he is otherwise qualified.

The act provides a way in which the names of parties unlawfully registered may be stricken from the books, the Mayor being the party who hears the evidence and decides the question.

It is made the duty of the City Clerk to deliver to the clerks of election in the various wards the registration books and poll books for their several wards. He shall do this on the Saturday previous to election day.

At said election (the city election in January, 1891, and thereafter in city elections) "no vote shall be received unless the name of the person offering to vote is on the registry provided in this act."

The penalty for false registration or aiding or abetting same is imprisonment in the county jail from one to twelve months.

The penalty for altering, secreting or destroying any registration book, or for making a false or fraudulent registration book is imprisonment in the penitentiary for one to five years, and the party so convicted shall forfeit any office he may then hold and shall forever be disqualified from holding office.

The act fixes penalties for other violations of its provisions.

A copy of the act must be printed in each registration book.

A NEW swindling scheme has been devised and is being worked successfully in an adjoining State. An exchange says the worker has packages of stationery which he sells for various amounts, according to the circumstances of the particular case, and declares that each package contains a money order which will be cashed by an agent who will call later. In this way he gets from \$3 to \$5 for a package worth about 50 cents. Any one fool enough to be roped in on such a racket as that deserves no sympathy.

A SERIOUS CHARGE.

John Fitzgerald Under Bond to Answer for Shooting and Wounding Michael Kinney.

"What did you do that for, John?" was the question Michael Kinney asked John Fitzgerald yesterday afternoon about 2 o'clock, when the latter fired a charge of No. 4 shot at him.

Fitzgerald lives near Pogue's distillery in the West End and Mr. Kinney, whose home is in Chester, is a section foreman of the C. & O. Railroad. The two had always been friends, and the shooting was the result of a fuss over a trivial matter.

Mr. Kinney's account of the affair is that on Monday morning this week a chicken belonging to Mr. Fitzgerald was killed by a passing train. A colored section hand took the chicken home, and Fitzgerald that evening demanded that Kinney discharge the negro for stealing the chicken. No attention was paid to this. Mr. Kinney knew nothing about the killing of the chicken and the negro's taking it until told of it.

Next morning Mr. Fitzgerald was out with a gun when Kinney and his men passed down on a hand car to their work. This frightened the negro and he quit work.

Fitzgerald had made some threats, and yesterday he and Kinney had some words about the matter. Kinney came up town and had a warrant issued for Fitzgerald to require him to give bond to keep the peace. Fitzgerald knew nothing of this, however, until after the shooting. Kinney started to return to his work, and on reaching Mr. Fitzgerald's house was invited in by Fitzgerald "to take a drink." "No, I won't take a drink with you," replied Kinney, and he proceeded on his way. He had gone less than three hundred feet down the track when some one fired on him from the rear. He turned and saw Fitzgerald disappearing behind the house.

Kinney's wounds are not very serious. One shot passed through his right ear, and several struck him in the right side of his neck and in the back. His wounds were dressed by Dr. Owens.

After the shooting Kinney asked a colored man named Jim Davis, who was working for Fitzgerald, to assist him up town, but Fitzgerald ordered the fellow not to do it.

Later in the evening Fitzgerald was given a hearing before Squire Miller and was held over to next Circuit Court, to answer the charge of shooting and wounding with intent to kill. His bond was placed at \$300, and he gave the required bail and was released.

MINER'S AXIMS

There's nothing wonderful in
Selling good shoes at a high price;

Anybody can do that.

The wonder is, where good shoes are sold
At low prices.

That's MINER'S specialty.

Now, what in the world would we be advertising for, if all we had to offer was good shoes at an extra price? You've heard about the crazy man on the tower? He grabbed a stranger and said: "Let's jump down and make ourselves famous."

"Pooh!" said the ready-witted stranger, "any man could jump down; let's go down and jump up."

We're not crazy.

Not crazy enough, at least, to think that you'd jump at an offer of shoes from us, when you could do just as well elsewhere.

We would not expect to win your trade by selling good shoes at a big price, and we wouldn't waste money advertising that fact. Our specialty is a GOOD shoe at a LOW price.

That's where we stand alone.

The fact we want to "ding" into everybody's mind is that good shoes at MINER'S cost no more than poor shoes, such as MINER don't keep—don't keep them because they won't spoil the record:

More Witnesses Testify

Arbitrators Investigating the Central Strike.

WHY THEY WERE DISCHARGED.

The Board, After Examining All the Witnesses in New York City, Adjourns to Meet in Albany, Where a Large Number of Witnesses Reside, Nearly All Being Discharged Knights of Labor.

New York, Sept. 4.—The state board of mediation and arbitration yesterday resumed its efforts to ascertain the causes of the strike on the New York Central and Hudson River railroad. Hamilton Harris, counsel for the railroad, called as the first witness of the day General Manager Toucey.

Chairman Purcell asked him to give the board such information as he possessed in reference to the discharge of Master Workman E. J. Lee. Mr. Toucey said he had an interview with Mr. Lee some time ago, in the course of which Mr. Lee alluded to watering of the company's stock; intimated that some one was making a good deal of money, and that he and the other men ought to have some of it.

In reply to a question by Gen. Pryor, the witness said he did not discharge Mr. Lee. Before the talk about the stock watering, Mr. Lee made certain demands on behalf of the men and they were refused.

Superintendent Voorhees testified that he had nothing to do with the discharge of any of the seventy-eight men. He was out of town for three weeks before the strike.

Master Mechanic Buchanan testified that in discharging Lee he did so by orders of Vice-President Webb and had no personal knowledge of the cause for his discharge. Of the seventy-eight men discharged he knew the cause for discharge in the cases of two only—Malloy and Conway. Malloy was discharged for obtaining a pass under false pretenses. Conway was discharged for neglect of duty. He absented himself without leave and was several times late in the morning and at noon.

Trainmaster Stevens, on being called by counsel for the railroad, testified that he had never told any employee of the company that he must either leave the Knights of Labor or leave the road.

Gen. Pryor called John Seery, who was employed under Stevens. Seery testified that he went into Mr. Stevens' office to get supplies and Mr. Stevens asked him if it was true that he had joined the Knights of Labor. Seery told him it was. Then Stevens told him he should not have joined without acquainting him, as he had helped him to better his position. Mr. Stevens further said that he had better get out of the Knights or it might cost him his bread and butter. Seery understood him to mean that if he did not leave the Knights he would be discharged.

This conversation occurred on Aug. 1. At the request of Mr. Stevens he was recalled. He said part of Seery's testimony was true and part was not. He did ask Seery if he belonged to the Knights of Labor and he told him he ought not to join them without acquainting him. This was an account of his personal relations to Seery, he having got him a better position and more pay than he had been receiving. He did not tell his bread and butter depended on his leaving the Knights, but when the secretary asked him what he ought to do, he told him he must act on his judgement. If Seery was his brother, however, he would advise him to leave them, as in case of a strike he would find himself compelled to go out with them.

Gen. Pryor asked the witness if he had a conversation with Conductor William Gibson in reference to his leaving the Knights of Labor. Mr. Stevens said Gibson came to him with his resignation from the Knights of Labor and asked him to mail it for him.

The witness promised to do so, and told Gibson he was glad to see him taking that step. He never advised anyone to leave the Knights of Labor.

At the conclusion of Mr. Stevens' testimony, Gen. Pryor announced that he had no more witnesses to call here, but had a number in Albany. The board decided to adjourn until Friday at 10 a.m., when it will meet in Albany. Secretary-Treasurer Hayes, of the executive board Knights of Labor, handed up to Chairman Purcell a long list of witnesses who are to be subpoenaed to testify in Albany. They are mainly discharged employees of the Central road.

UNITED TYPOTHECTAE.

Proceedings of the Second Day's Session Held to Boston.

BOSTON, Mass., Sept. 4.—At the second day's session of the United Typothetae Mr. Petrbone, of Chicago, for the committee on apprenticeship system, presented an extended report, in which the revival of the system in some form was strongly urged on the ground that such revival would tend to make better workmen, do away with the labor trouble and bring in a much better class of men. The committee hopes that active steps may be taken in deciding which system may be the best.

Secretary Wallace, of Philadelphia, presented a protest against the re-establishment of the apprenticeship system, expressing the belief that the system was a back number and that a substitute for it would be found in the mechanical trade schools.

A resolution was adopted memorializing congress to pass an amendment to the present copyright law more definitely defining what may and may not be lawful subjects for copying it.

A motion for correspondence on the subject of copyright with other affiliated bodies was carried.

Mr. Shepard, of Toronto, extended an invitation to the convention to meet there in 1892.

Mr. Imlis, of St. Louis, spoke against the Chase international copyright bill. The convention then adjourned.

GILROY, Calif., Sept. 4.—A sharp shock of earthquake was felt here at 3:20 p.m. yesterday. Its duration was about two seconds.

HIAWATHA VANISHES.

Big Blaze in the Heart of a Bustling Kansas Town.

HIAWATHA, Kan., Sept. 4.—The worst fire ever known in this city broke out at 1 o'clock Wednesday morning in William Horne's livery stable and in no less than three hours it had destroyed two and a half blocks in the business center of the city, causing a loss of at least \$150,000.

The greatest loss was the First National bank building, owned by Congressman Morrill. The vault, containing \$50,000 in currency and many valuable books and papers, gave way under the intense heat, and its contents were entirely destroyed.

For over two hours a furious wind from the north drove the fire southward, but about 3 o'clock the wind died down.

There are only one fire engine in the city, and should the wind rise again the whole of the business portion of the city will be wiped out. At 3 a.m. the fire was still raging. The fire engine had a small stream on the buildings near the Hitch block, but it is doubtful if this can be saved.

The destruction at 3 a.m. includes the First National bank building, the Odd Fellows' building, two of the best livery stables in the city, the grocery store of J. A. McGuire, loss, \$5,000; Grimes & Love, hardware, loss, \$5,000; the Kentucky hotel, loss, \$5,000; livery stable of James Hiner, loss, \$5,000; John White's grocery, loss, \$5,000; Bill's Front livery stable, loss, \$5,000. These are but a few of the losses.

A Boarding-House Trust.

CHICAGO, Sept. 4.—The trust mania has penetrated into the realms of boarding house keepers. The day evening a company of forty gentlemen representing the restaurant and boarding-house interests of North-West Chicago met in high convocation and organized a union. They discussed the feasibility of placing a uniform price on table board by the day and by the week, and there was a unanimous feeling that a slight but firm advance in the present rates was the panacea for the present unhealthy state of their business. The price of all produce and table supplies has been gradually rising during the summer until it has arrived at a point where their business has become unprofitable. Now they will try organization.

Catholic Knights of America.

SOUTH BEND, Ind., Sept. 4.—The sixth council of the Catholic Knights of America is in session in this city, with delegates from forty-one branches present. The forenoon's session was given over to the uniform ranks, it being the first annual encampment of the rank. Constitution, by-laws and rules of the order was adopted, and reports received from commissioners appointed at last year's meeting at Indianapolis. The parade in the afternoon was participated in by a large number of members, and was a grand affair.

A Hot Contest Ended.

RUTLAND, Vt., Sept. 4.—The hottest and most protracted contest for representative in the history of Rutland resulted, after four ballots, lasting till 3:30 a.m., in the election of Thomas W. Madoney, Democrat, by 35 majority over three other candidates. The contest was noteworthy because Rutland is recognized as the home of the high license movement, and the defeat of P. W. Clement, Republican, and the father of the movement, was accomplished by a small majority, about 200 prohibitionists voting for the Democratic candidate.

Wedding of the Bride.

SHELBYVILLE, Ind., Sept. 4.—Clarence Stewart, of this city, and Miss Anna Pike, of Grand Junction, Iowa, both blind, were married Tue. last. They are well educated and of excellent families. Clarence is a well known genius of this place, having the faculty of finding any place in the city without a guide.

Carpenters' Strike Ended.

CINCINNATI, Sept. 4.—The carpenters' strike is to all appearance already ended. At the headquarters of the strike committee of the carpenters' council it was stated that fully 4,000 men had already returned to work at the rate of pay and terms demanded, and that not over 400 men are now idle on account of the strike.

A Woman's Sentence.

NEW YORK, Sept. 4.—Mrs. Emily Cavanaugh, who on the evening of July 24, endeavored to riddle her actor husband, John Cavanaugh, with bullets, at the corner of Irving Place and Fourteenth street, was yesterday sentenced to five years and four months in the state prison.

Three People Burned to Death.

PHILADELPHIA, Sept. 4.—By the explosion of a coal oil lamp early yesterday morning at 1,500 Gertrude avenue, the house was set on fire and Mrs. Sarah McIntyre, 60 years old; Mamie McIntyre, 10 years old, and Annie Logue, 17 years old, were burned to death.
